

Grocery Delivery Definitions

Grocery Delivery

- Grocery delivery is a service that delivers of a *single* grocery order to a given location (described below). You place your grocery order via a smartphone app or website. The order will be fulfilled up by a grocery store of your choosing.

Buy Your Own Groceries

- This refers to the traditional way you would buy your groceries.

Delivery Price

- Each grocery delivery will cost a flat fee regardless of the number of grocery deliveries. This includes all associated costs including tip.

Delivery Date

- Delivery will be completed today, tomorrow, in 4 days, or in 7 days. Groceries will be delivered to the given location (described below).

Delivery Agent

- Delivery will be performed by either a human or an autonomous vehicle. This will not impact the delivery price, process, or timing in any way.

Location

- Grocery deliveries will be taken to one of three locations:
- Doorstep: groceries will be placed, unsupervised, on your doorstep
- Curbside: groceries are delivered to your curbside, you will have to come and pick the groceries up from the delivery vehicle
- Neighborhood locker: groceries will be delivered to a secure, refrigerated locker that is within walking distance from your house"
